One Day International Workshop

On

Exploring ABCD Open Source Software

By

Mr. Alisson De Castro
International Trainer
Brazil

March 5, 2013

Venue:

Library and Information Centre

Modern College of Arts, Science and Commerce,

Ganesh-Khind, Pune – 411053, India

Partners

About Workshop:

Modern Libraries are facing different challenges like electronic resource management, OPAC, Library websites, online web based user centric services, etc. NAAC is evaluating libraries on their innovative and advanced services like federated services tools of digital resources, online information management skill, library websites, and active participation of library professionals, standards used along with traditional services. Many open source softwares are coming up to support library professionals. ABCD is one of most advanced library automation cum digital library open source software by UNESCO and BIREME. All over world the software is being used by different libraries, research centers. **This workshop is supported by Modal Network Company, Brazil, VLIR, BIREME, PAHO, WHO, Belgium.** Main objective of this workshop is to give hands on session on its different modules, how to create library website with this software, its special features and next version specialties.

Why ABCD?

ABCD is a suite of modules for automation and document management in libraries and documentation centres. Unlike most 'library automation systems', it offers support for creation and management of any type of textual information, with multi-media being dealt with using the WWW-technology on which ABCD is fully based along with the powerful ISIS database-technology. Libraries can automate their catalogs (but also acquisition, circulation) and end-user searching, but also provide repositories, experts and events databases, and all this in an integrated environment, where one 'meta-search' action avails all resources from one 'portal', created by the built-in Content Management System.

ABCD is suitable when there is a need for flexibility along with power in documents and information management, for smaller and larger organizations using either Windows or Linux servers or even on a stand-alone PC system.

Resource Person: **Mr. Alison De Castro, MODAL, Brazil**

He is a partner of Modal networks since 1996 and has a Degree in Informatics, specialized in Library Automation Systems, working with CDS/ISIS technology since 1995. He worked on DOS version, Winisis and presently working on ABCD. He is Programmer in C, C#, Assembly, PHP and others tools like CISIS, XML, and ISIS Format language. He actively involved in the installation of ABCD in many organizations like Law offices, Universities and document centers

Coordinator and Resource Person:

Ms. Sangeeta Dhamdhare, Librarian, Modern College of Arts, Science and Commerce, Ganesh-Khind, Pune - 411053

Organized by: Central Library, Modern College of Arts, Science and Commerce, Ganesh-Khind, Pune – 411053

Partners:

VLIR/UOS : The Flemish interuniversity council (Belgium) supported the development of ABCD for use with its university partners in the South

WHO : World Health Organization, a member of the UN-system in which the ISIS technology was developed and supported (esp. UNESCO and FAO)

BIREME : The Brazilian Health Information organization, member of WHO, in which ISIS-technology was highly developed as the technology supporting their 'Virtual Health Library', leading to the ABCD system.

Organizing Committee:

Dr. Gajanan Ekbote, Chairman, P.E. Society, Pune

Prof. Shamkant Deshmukh, Secretary, P.E.Society, Pune

Dr. Sanjay Kharat, Principal, Modern College, Pune

Prof. Dr. Egbert De Smet, Antwerp University, Belgium

Prof. Suresh Todkar, Chairman, Modern College, Pune

Prof. Prakash Dixit, Visitor, Modern College, Pune

Dr. Jyoti Gangangras, Vice Principal, Modern College, Pune

Prof. Shubhangi Joshi, Vice Principal, Modern College, Pune

Prof. Swati Kandharkar, Vice Principal, Modern College, Pune

Dr. Shubhangi Bhatambrekar, HoD, Comp Sc, Modern College, Pune

Program agenda

- 8:30 Inauguration and Presentation
- 9:00 ABCD - Installation
Details about installation in Windows, Linux
- 10:00 ABCD - Operation
Description of modules and functions
- 10:30 Coffee Break
- 11:00 ABCD - Catalog Module
Demonstration about tool to create, insert records, standards
- 11:30 ABCD - Creation of Simple Database
- 12:30 Lunch
- 13:30 ABCD - Search module (/site)
- 14:30 ABCD - /site Admin
- 15:30 Demonstration of cases and Libraries using ABCD
- 16:30 Discussion on Future - Version 2 (Multilingual include Arabic and Hind Scripts full support)
- 17:30 – Close session

Registration:

Limited 40 seats on first come basis

Payment: Payment should be made by Cash or Demand Draft in favour of **The Principal, Modern College of Arts, Science and Commerce, Ganesh-Khind, Pune**

Who can participate?

- Administrators
- Library and Information professionals
- IT Professionals/ Faculties
- Students

Participants should have elementary knowledge of Computer and He or she must be familiar with WINDOWS administration, Good understanding of Internet, Familiar with installing software from source bundles: download, de-archive, and build and installation.

Registration Fees: (It includes workshop kit, breakfast and lunch)

- Administrators : **Rs. 750/-**
- Library and Information professionals : **Rs. 750/-**
- IT Professionals/ Faculties : **Rs.1000/-**
- Students : **Rs. 500**
- Outsiders: **\$250**

Last date of sending the registration form along with Demand draft is 28th February 2013 on following address:

Ms. Sangeeta Dhamdhere
