Technical Skills: -

Languages: JavaScript, Java, C, Python, PHP

Frontend: HTML, CSS

Databases: PostgreSQL

Tools & Platforms: Power BI, Jupyter Notebook, Eclipse, MySQL, XAMPP

Experience: -

Company Name: SGMS Infotech, Pune

Duration: Jan 16, 2025 – July 2025

Designation: Java Developer

Responsibilities: Developed a web-based application using Java, JSP, and Servlets, following the MVC architecture. Connected the application to a MySQL database and performed unit testing to ensure smooth functionality.

Projects: -

HR Analytics Dashboard -Power BI (2025)

- Created an interactive HR dashboard to display critical parameters such as attrition rate, employee numbers, gender diversity, and department-specific distribution.
- Connected and processed raw CSV data to create meaningful graphics with Power BI DAX functions and slicers for drill-down analysis.

Bike Showroom Web Application – Java, JSP, Servlets, MySQL, HTML/CSS (2022)

- Created a web-based application to manage a bike dealership, with modules for inventory, client information, billing, and user authentication.
- Java servlets and JSP were used to provide functionality such as add/view/update/delete motorcycles and purchase data.
- Backend integration with MySQL allows for efficient data storage and management

Certifications: -

Real-Time Operating Systems – NPTEL, IIT Kharagpur · Feb–Mar 2025

Edge Computing – NPTEL, IIT Kanpur · Jan–Mar 2025
